This safe two-phase treatment contains **ZERO**:

- Formaldehyde
- Replacement –aldehydes
- Formalin or other ingredients that release Formaldehyde during heat processing
- Vanillin
- Thioglycates
- Sodium Hydroxide
- Ammonia

## Directions

This is a professional only treatment. Please read directions for each treatment prior to starting and follow them step-by-step.

## Key Ingredients

- **HEATWAVE TECHNOLOGY<sup>®</sup>** works as a catalyst to deliver heat into the cortex of the hair shaft while protecting the cuticle. This allows the style to be set more deeply into the hair, providing long-lasting style retention. The heat transfer locks peptides and proteins to the hair's S-bonds, effectively controlling the very structure of the hair shaft. Heat-activated conditioners and nutrients protect and soften hair during heat styling.
- **Keratin** bonds to hair throughout the cuticle to eliminate frizz and strengthen hair.
- Exotic **Amazon Oil<sup>®</sup>** of Maracuja (Passion Fruit), Brazil Nut and Buriti provides hair essential lipids, oligopeptides and fatty acids. Rich in vitamins and minerals to maintain healthy hair.
- **Black Cacao**, found only in the Venezuelan region of the Amazon and loaded with polyphenols, provides extensive antioxidant properties.
- **Certified Organic Extracts** add softness and shine.
- **Paraben-Free** formulas.
